

Introduction

Name : David Kelly
What : Project Controls system specialist
When : Since 1977
Where : Process sector, 95% Oil and Gas

Who is Collabro?

- Private Company based in Aberdeen
- Offices in Perth, Australia & Kuala Lumpur
- Spin off of UK Oil Industry Service provider
- Core business is Oil Industry shared Services
- Vantage POB Offshore personnel logistics
- EEMS Environmental Emissions
- Legare developed to meet demand from the project planners

Improving Asset based project efficiency through better data integration

- The Integrated Activity/Asset Plan
- What is it
- Why do we want it
- Surely P6 is the answer
- Why is it not ready

What's the problem

- Object Orientation failed
- Estimate and approval
- Separate organisations
- Cost/Planning integration
- Departmental integration

What's the solution

- It's all about the data
- We have the technology (at last!)
- Not just about the data really - write the procedures
- The will to do it
